Data accessible from the Coop Charting page of MarcoIslandSailandPowerSquadron.org

The following instructions assume a Windows 7 or Windows 10 computer and a Chrome browser. Other computers and/or browsers will require similar actions, but there may be differences.

Survey Data

Click the link [MISPS ATON Survey Data.xlsx](#) to open this Excel file in an on-line viewer. The opening page, "1. Description", describes the four other sheets of the file and possible uses. You can view each sheet by clicking the corresponding tab at the bottom of the viewer window, but Excel features like sort, filter, print and others are not available. To use Excel features download the file and open it in Excel.

To download the file, click the download symbol near the upper right of the Google viewer window. The document downloads into your default Download folder, and a link appears at the bottom of your browser window. If you have Excel on your computer, open the file by clicking this link, or by navigating to the Download folder and clicking it there.

This file contains only data. Formulas and other sheets used to create this file are in a separate Excel workbook.
